SUMMARY

Final-year Software Engineering student with an interest in software development, artificial intelligence (AI), computer science, and emerging technologies. Seeking to pursue a Master's degree to deepen my technical knowledge, strengthen my problem-solving skills, and explore opportunities to contribute to academic projects and research in software engineering and AI.

EDUCATION

Bachelor of Software Engineering **Sept 2023 – Jun 2027 (Expected)**
Chengdu Neusoft University, Chengdu, Sichuan, China

- **CGPA:** 3.23
- **Scholarship:** 100% scholarship, including accommodation and a monthly stipend.
- **Relevant Coursework:** Data Structures and Algorithms; Object-Oriented Programming; Database Systems; Operating Systems; Computer Networks; Software Engineering; Software Architecture; Software Testing; Web and Mobile Application Development; Microservices Development; Artificial Intelligence; Human-Computer Interaction; Statistics and Probability;

Higher Secondary School Certificate (Science) **Jun 2020 - Aug 2022**
Shahid Abul Hasnat Muhammad Kamaruzzaman Government Degree College, Bangladesh

- **GPA:** 5.00/5.00

PROJECTS

TechNova: Intelligent E-commerce System
React, Spring Boot, MyBatis, MySQL, DeepSeek AI

- Developed an e-commerce platform for browsing electronics, managing shopping carts, and handling product and order information.
- Designed backend APIs and database operations to support core shopping functionalities.
- Planned AI-powered customer assistance to improve the shopping experience.

Real Estate Android Application
Android Development, Java, Database Integration

- Developed a mobile application concept for browsing property listings and viewing property details.
- Designed user interfaces for property discovery and information management.
- Organized property data to support search and listing features.

Shopping Cart Mini Program
WXML, WXSS, JavaScript, Vue.js

- Developed a shopping cart application with product browsing and cart management functionality.
- Implemented cart operations, including adding items, updating quantities, removing products, and calculating the total price.
- Used Vue.js to build interactive user interface components and MySQL to store product and cart data.

Nuclear Radiation Detection 2025
10th National Biomedical Engineering Innovation Competition 2025

- **Participated in the competition held at Xi'an Jiaotong University with the project "Nuclear Radiation Detection."**
- **Represented Chengdu Neusoft University as a member of a joint Chinese and international team.**

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript (ES6+), Python, C, SQL
- **Web Development:** HTML5, CSS3, Vue.js, Spring Boot, Responsive Web Design, DOM Manipulation, REST APIs
- **Database Management:** MySQL, Navicat, MySQL Workbench
- **Development Tools:** Git, GitHub, VS Code, IntelliJ IDEA, NetBeans, HBuilderX, Code::Blocks
- **Platforms:** GitHub Pages, WeChat Mini Program (WXML, WXSS)
- **Multimedia & Design Tools:** CapCut, Canva, Figma
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering

ACADEMIC ACHIEVEMENTS

- **Full Scholarship Recipient, Chengdu Neusoft University (2023–2027):** Awarded a 100% scholarship covering tuition and accommodation, along with a monthly stipend for four years.
- **Ambassador & Innovation Contributor, ICT Olympiad Bangladesh:** Contribute to initiatives supporting ICT education and innovation.
- **International Volunteer Member, Foreign Affairs Office of Dujiangyan City, China (2024):** Participated in international volunteer activities.
- **National Biomedical Engineering Innovation Competition 2025:** Participated at Xi'an Jiaotong University with the project "Nuclear Radiation Detection," representing Chengdu Neusoft University as part of a joint Chinese and international team.

PROFESSIONAL EXPERIENCE

Frontend Developer | Baobao E-commerce Website **May 2025 – Oct 2027**
Website: *https://baobao.com.bd/*

- Developed and maintained responsive website interfaces using HTML5, CSS3, and JavaScript.
- Designed and implemented product listings, navigation menus, and user-friendly UI components.
- Added interactive browsing features using JavaScript DOM manipulation.
- Improved mobile usability, cross-browser compatibility, and overall website performance.
- Contributed to ongoing website enhancements to improve usability and the user experience.

CERTIFICATIONS

- CS50x: Introduction to Computer Science - HarvardX (via edX)
- Web Development Fundamentals - IBM SkillsBuild | September 2026
- Research Paper Writing Course - Amar iSchool | May 2026
- Reviewer Recognition - Information Sciences (Elsevier) | March - August 2026
- 20th Bangladesh Mathematical Olympiad - Participant, Junior Category | February 2022
- Youth Mentor Volunteer - 150 hours of service | March 2025

LANGUAGES

- **Bengali:** Native
- **English:** Excellent
- **Chinese:** Basic
- **Hindi:** Conversational
